

Promote cultural programming activities on the waterfront

- Conduct education programming for children, including movie screenings and music, dance, and arts events throughout the five boroughs. (DCA, 2011)

GOAL: Support the Working Waterfront

Encourage the expansion of container shipping

Brooklyn

- Red Hook: Market the Container Terminal as a distribution hub for containerized cargo destined for East of Hudson businesses. (EDC, 2011)
- Sunset Park: Coordinate with the Port Authority on its Cross Harbor Freight Movement Environmental Impact Statement to ensure that transportation improvement alternatives fully account for expansion of container shipping. (EDC, 2012)

Staten Island

- New York Container Terminal: Complete environmental review for expanding container handling capacity, which will create approximately 300 jobs upon completion. (EDC, 2012)

Sustain economic development activity on the working waterfront by investing over \$170 million

- Develop maritime skills apprentice program in partnership with SUNY Maritime College (EDC/SBS, 2011)
- Assist the Urban Assembly New York Harbor School's efforts to have its Career and Technical Education program formally designated by the New York State Education Department's Board of Regents, which will secure ongoing funding for training the city's future maritime workforce. (DOE, 2011)
- Work with Brownfield Opportunity Area grant recipients, local communities, and elected officials in Significant Maritime and Industrial Areas (SMIA) to examine existing conditions and strategies for redevelopment, reuse, and remediation. (DCP/OER, 2013)
- Study zoning and other regulations regarding open industrial uses to better control environmental impacts, particularly the discharge of pollutants into the city's waterways, odor, and airborne dust and debris. (DCP, 2013)
- Revise Waterfront Revitalization Program to clarify SMIA purpose and intent, review procedures, and strengthen water-dependent uses. (DCP, 2012)
- Establish Task Force to focus on mooring tie-ups, "gray-water" discharge prohibition, Marine Highways, dredge material management, vessel repair capacity, and in-kind bulkhead replacement policies. (EDC, 2011)

Brooklyn

- 65th Street Rail Yard: Improve rail infrastructure to increase the use of cross harbor rail freight system by leveraging public and private investments. (EDC, 2013)
- Replace and lower Anchorage Channel Tap Water Siphons to facilitate deepening of the harbor shipping channel. (EDC/DEP, 2011)
- Brooklyn Navy Yard: Continue replacement of bulkheads and piers, and complete dredging to ensure long-term viability of maritime uses. (BNYDC, 2013)
- Red Hook: Provide additional berthing locations to commercial vessels along the north side of Atlantic Basin. (EDC, 2011)
- Sunset Park: Complete rehabilitation of South Brooklyn Marine Terminal to receive ships and barges, creating 400 new jobs. (EDC, 2012)

GOAL: Improve Water Quality

Implement \$180 million of green infrastructure projects that capture stormwater runoff and reduce combined sewer overflows (CSOs)

- Complete construction and monitor green infrastructure pilot projects that promote more efficient rainwater capture, including:
 - Bronx, Brooklyn and Queens: Monitor effectiveness of constructed "blue roof" pilot projects to minimize runoff impacts;
 - Brooklyn and Queens: Complete construction and install permeable pavement pilot projects at municipal parking lots;
 - Queens: Monitor stormwater-capture tree pits and street design pilot projects;
 - Queens: Transform the North and South Conduit Avenues median into a natural water filter and bio-retention area. (DEP, 2011)
- Capture the first inch of rainfall on 10% of impervious areas in combined sewer watersheds over 20 years by implementing green infrastructure in capital projects.

Invest \$650 million to build cost-effective gray infrastructure that captures and manages combined sewer overflows

- Launch comprehensive program to build on improvements to existing wastewater systems, including surveying and improving 136 miles of interceptor sewers; inspecting and repairing tide gates; and developing programs to prevent grease from obstructing sewers. (DEP, 2012)

Brooklyn

- Gowanus Canal, Brooklyn and Avenue V/Coney Island Creek, Brooklyn: Complete pump station and force main. (DEP, 2013)
- Gowanus Canal: Complete the upgrade and reactivation of the flushing tunnel from Buttermilk Channel. (DEP, 2013)
- Gowanus: Design and begin construction of the first phase of high-level storm sewers within a 48-acre drainage area to reduce CSOs in Gowanus Canal as well as street flooding and sewer backups in adjacent neighborhoods. (DEP, 2013)

GOAL: Enhance the Blue Network

Expand and improve NYC Water Trail

- Create design guidelines for replicating best human-powered boat launch types and features. (DPR, 2013)
- Develop more detailed human health protection advisories to keep boaters safe from environmental and physical threats. (DEP/DOHMH/DPR, 2013)

Bronx

- Hunts Point: Complete expansion of launch platform for canoes and small boats for floating dock at Hunts Point-Riverside Park. (DPR, 2013)

Manhattan

- Manhattanville: Activate West Harlem Piers Park's excursion boat pier and ferry barge. (EDC, 2011)
- Inwood: Complete repair and replacement of floating docks, and construct restaurant, snack bar, and restrooms at Dyckman Street Marina. (DPR, 2012)

Pilot inter-borough commuter ferry service

- Test feasibility of commuter ferry service on the East River connecting Brooklyn and Queens with Manhattan. (EDC, 2011)
- Coney Island: Complete Coney Island Ferry Study to determine feasibility of ferry service. (EDC, 2011)
- St. George and Whitehall ferry terminals: Develop recommendations for an enhanced docking system for the Staten Island Ferry fender racks. (DOT, 2012)
- Murray Hill: Construct E. 35th Street ferry landing that provides sheltered waiting area, ticketing, and pedestrian amenities. (EDC, 2012)

Enhance monitoring and improve public awareness of water quality standards, current conditions, and suitable uses

- Install new CSO outfall signs, enhance CSO website notification, and increase water quality sampling sites. (DEP, 2011)
- Develop comprehensive water use, navigation, and access policy. (Mayor's Office/ DEP/DOHMH/DPR/DCP/EDC, 2012)
- Identify opportunities to increase public awareness and stewardship of specific waterfront reaches, modeling successful public/private partnerships and working with the Partnerships for Parks Catalyst Program to link new conservation, protection, or enhancement efforts with existing organizations and programs. (DPR 2012)

Complete the update of NYC Waterborne Emergency Evacuation Plan

- Develop procedures to coordinate real-time support for maritime evacuation including ferry routes and landings, crowd control, enhanced mass transit service, and public information. (OEM, 2011)
- Support waterfront infrastructure projects that increase capability for emergency evacuations and disaster logistics. (OEM, 2011)

GOAL: Improve Governmental Oversight

Reform governmental regulation of the waterfront and waterways

- Establish In-Water Permitting Task Force to focus on developing permitting guidance documents, written mitigation policies and standards, a "one-stop-shop" for in-water permitting, and a training program for applicants. (EDC, 2011)
- Establish In-Water Design Guidelines Task Force to focus on design and construction practices and develop guidelines that minimize environmental impact, ensure structural resiliency of in-water structures, and accommodate vessel tie-up. (EDC, 2011)
- Develop wetlands mitigation bank and/or in-lieu fee program to promote more effective mitigation projects. (Mayor's Office, 2012)

GOAL: Increase Climate Resilience

Increase the City's resilience to climate change and rising sea levels

- Establish a strategic planning process for climate resilience by updating PlaNYC. (Mayor's Office, 2011)
- Partner with FEMA to develop more accurate consideration of current flooding risks, utilizing more accurate data in remapping to update FEMA Flood Insurance Rate Maps. (Mayor's Office, 2012)
- Study urban design implications of enhanced flood protection, and explore zoning and building code changes to promote freeboard. (DCP, 2012)
- Support coastal communities' efforts to undertake local resilience planning, and improve the dissemination of publicly-available data on the locations of hazardous material storage. (Mayor's Office, 2012)
- Study best practices for increasing resilience to coastal flooding and storm surge. (DCP, 2012)
- Revise NYC's Natural Hazard Mitigation Plan to reflect new information, such as updated Sea, Lake and Overland Surges from Hurricanes (SLOSH) data, and regulatory and policy changes. (OEM, 2013+)
- Revise NYC coastal storm evacuation zone maps based on updated SLOSH data to identify vulnerable populations. (OEM, 2013)
